PROFESSIONAL OVERVIEW

I am a final-year Diploma in Information Technology in Software Development student with a strong interest in building practical, user-focused applications.

Skilled in C#, ASP.NET Web APIs, HTML, CSS, SQL, and Python.

Experienced in developing and testing small-scale web and software projects.

Comfortable working with databases, backend logic, and basic front-end design.

Seeking an entry-level opportunity to grow as a software developer and contribute to real-world solutions.

WORK EXPERIENCE

Shop keeper

Gobisiqolo Traders, Ladysmith | Dec 2022 – February 2024

Managed daily store operations, including assisting customers, handling sales transactions, and maintaining stock levels.

Ensured the shop remained organized and well-presented while tracking inventory and supporting basic record-keeping.

- Assisted customers with purchases, handled transactions, and provided friendly service.
- Monitored and restocked inventory to ensure products were always available.
- Maintained a clean, organized shop environment and supported basic record-keeping.
